

The logo for 'yurika' is displayed in a stylized, rounded font. The letters are colored with a gradient: 'y' is dark purple, 'u' is medium purple, 'r' is reddish-purple, '!' is bright red, 'i' is orange-red, 'k' is orange, and 'a' is bright orange. The background features a white central area with a purple-to-orange gradient below it, separated by a white, inverted-V shape.

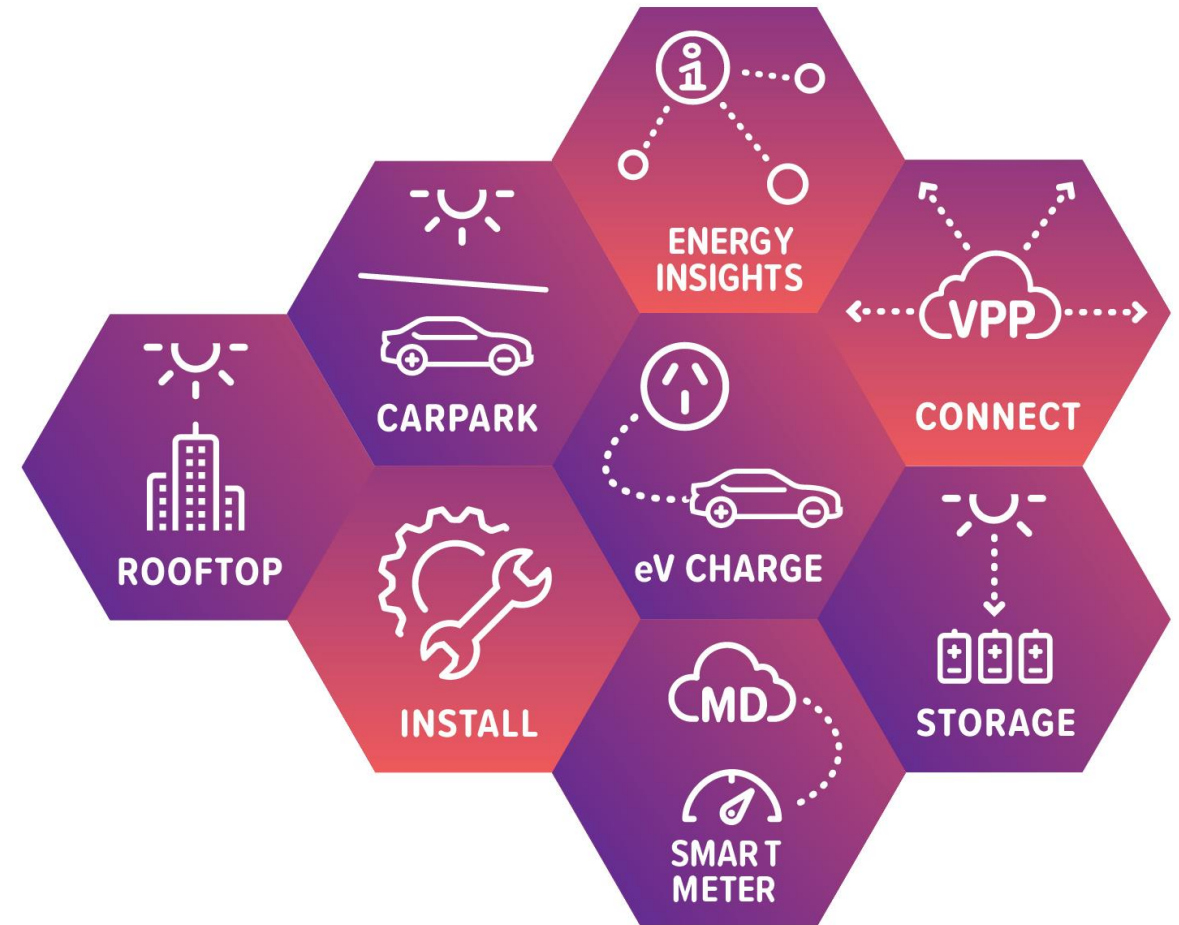

yurika

We understand electricity
and everything to do with it.

Yurika, part of the Energy Queensland Group

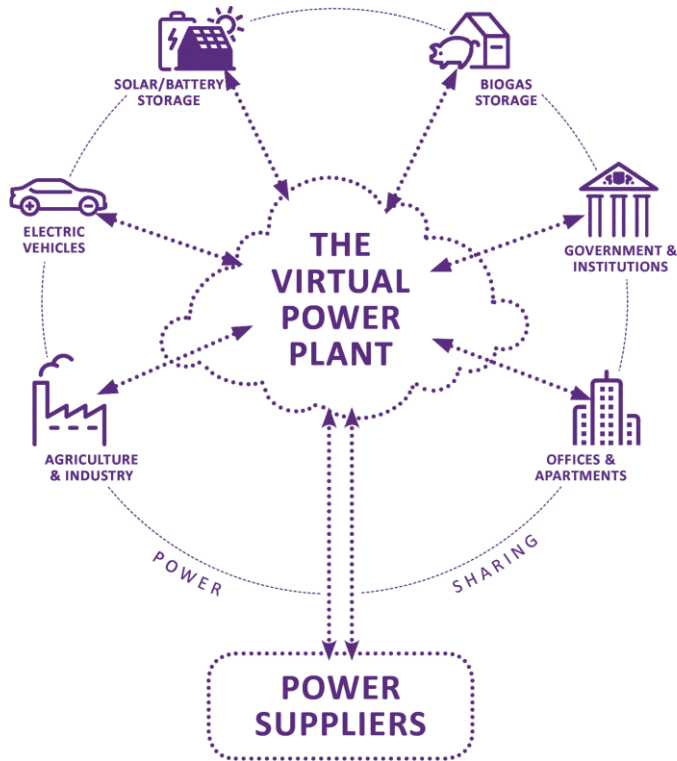

Leading provider of intelligent solutions that solve complex energy and telecommunication challenges to deliver maximum value for our customers

We energise communities and customers

yurika

Yurika's VPP, hosted in Townsville Queensland

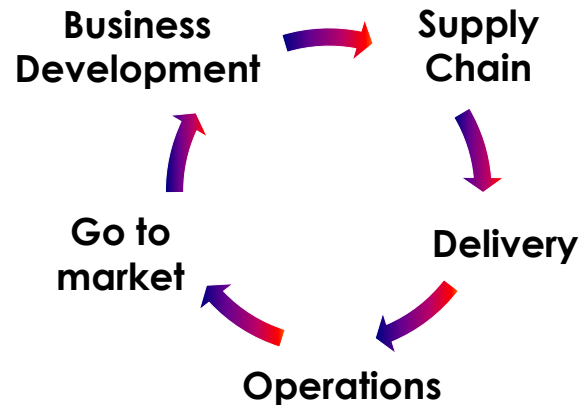

VPP's co-ordinate multiple technologies and capabilities through a common operational platform

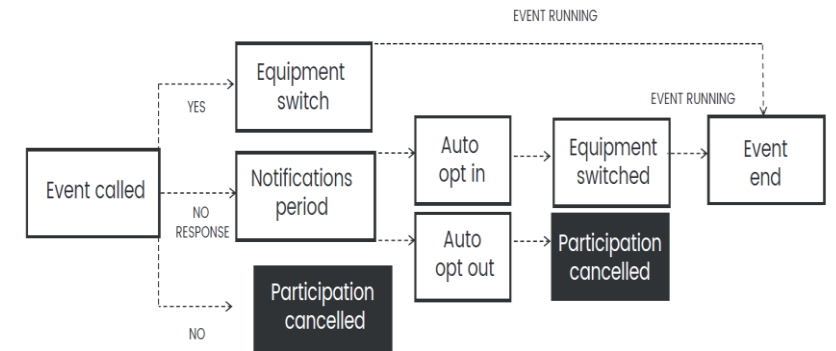

Assets and technology

Capability

Operations

Demonstrated innovation and performance

50MW deployed into the wholesale market in February 2018

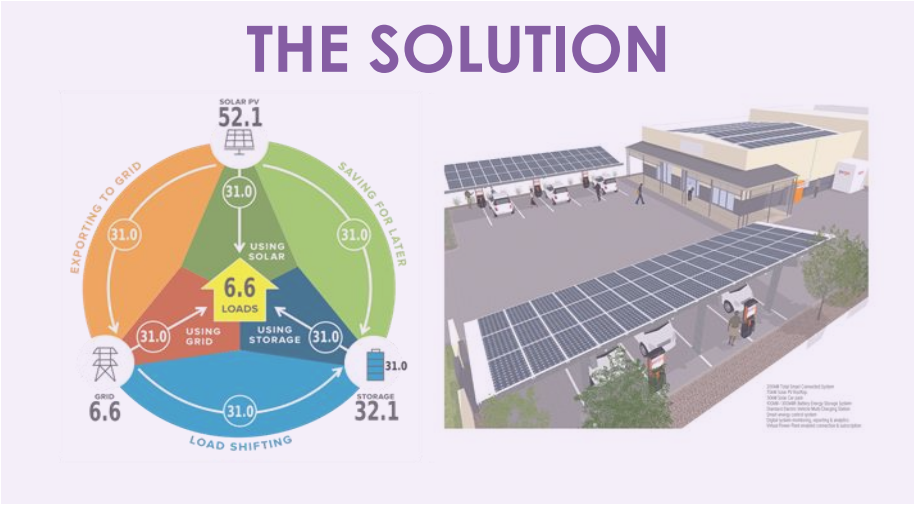

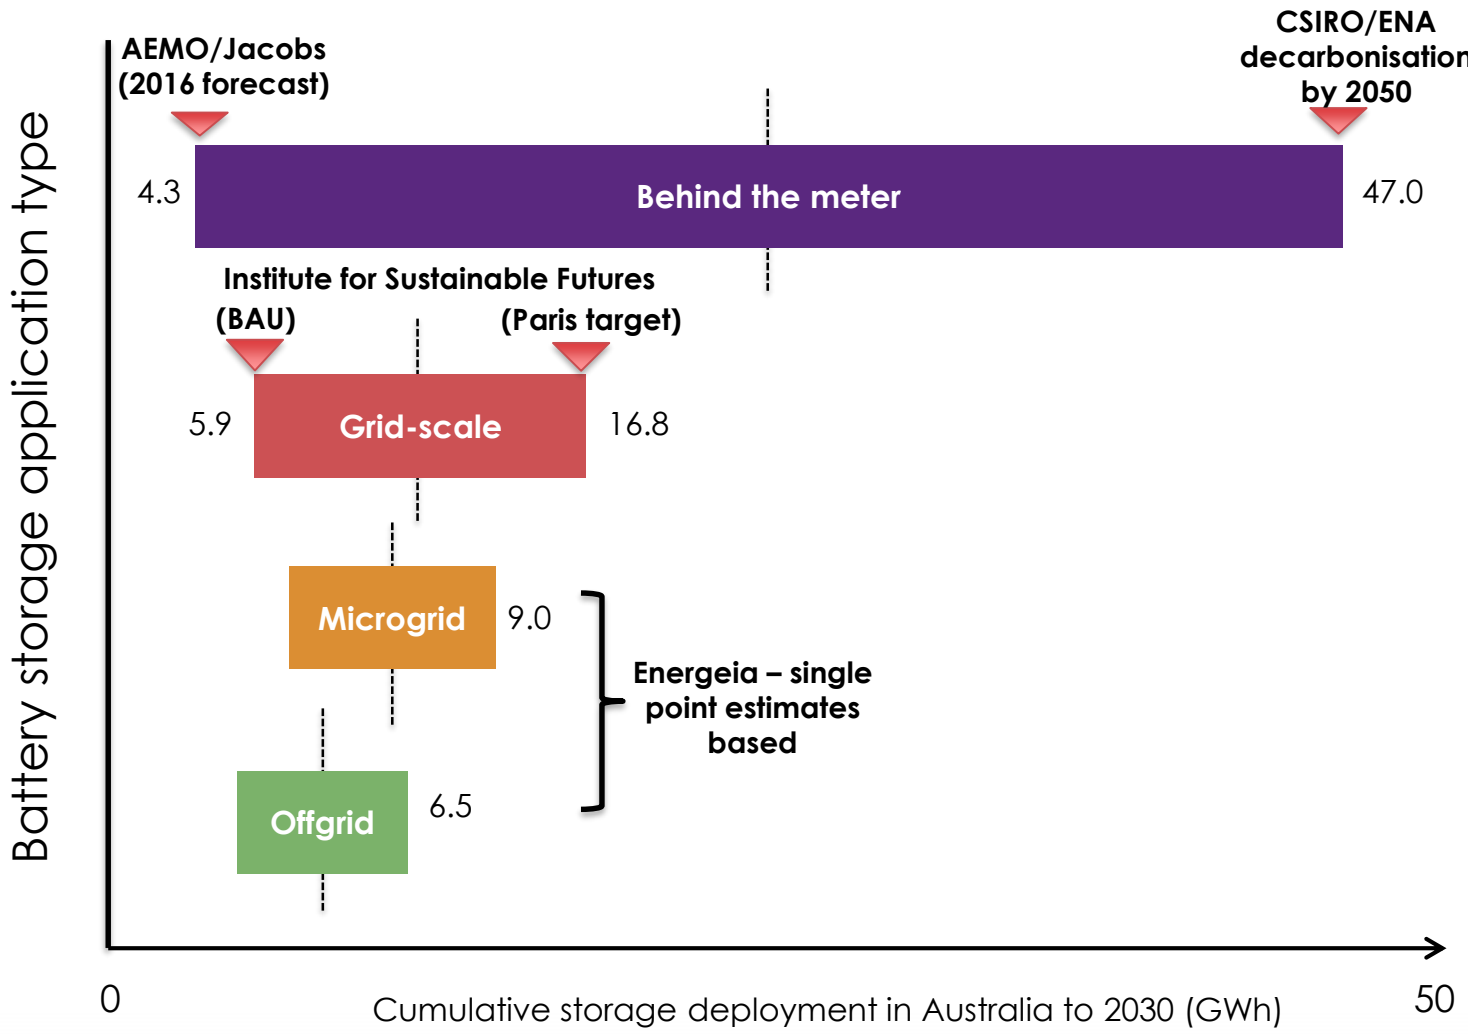

20MWh deployed in November 2018 for 8 hours for DNSP support

Winner of Clean Energy Council Innovation Award for **Lockhart River project**, collaboration between EQL, Queensland Government's DNRME and Department of Public Housing and Public Works

Solar installed on **840 homes** for public housing project

Battery Storage will facilitate a new wave of VPP innovation

Integrated solutions providing customer choice and options with VPP, solar, storage and smart controllers that can be “value stacked” behind the meter as well as with wholesale, FCAS and network markets
